

We are members of GESO, the union for graduate teachers at Yale.

We call upon the university administration to recognize our union
and begin negotiations towards a contract.

On December 14, 2004, Connecticut Secretary of State Susan Bysiewicz certified that 60% of all graduate teachers in Yale's central campus departments were GESO members. Now, this petition represents a clear majority of both current graduate teachers and of all registered graduate students in those departments.
